AMUSEMENTS.

Woop's Mussum.—A well filled house witnessed the performance last night at this theatre of the burlesque pantomime, "Robinson Crusoe." The piece is very well put upon the stage, the scenery and mechanical arrangements being of the best class of spectacular order—tojsuch, a degree, in fact, that the audience seemed better pleased with the show than with the sense. The opening view of the Enchanted Island was excellent, as was the view of the wreck and the raft. We think the piece is wanting in grace and spirit among the cast, none of whom struck us as being particularly good. The pantomime is a combination of tricks and practical jokes, which ran along very gibly and kept the audience amused. Of the performance as a whole we may say that the spectacle is a repetition of the "Black Crook" and the pantomime of "Humpty Dumpty," without the facial play which gave the latter its life. The novelty consisted in the introduction of the burnt cork minstrol, with a barbaric show and pomp of masks and, figures, which was very well received. We think the bailet and the acting can both be improved, as no doubt they will be as the piece runs on. The performance last night was a great improvement on the first representation.

cess, as it ought to have been. In Brooklyn, as in New York, and wherever the genial actor, author, numorist and social gentleman is known, popular favor follows him. His admirable play, "Playing with Fire," drew an overcrowded house at Mrs. Conway's pretty theatre. He was fortunate in the support afforded him by the standard company, who gave to the eccentric and peculiar Mr. Brougham—(we mean Doctor Swazge)—a very substantial amount of backbone, an important addition to the efforts of the author and the star of the occasion. The plot of the play is too well known to require any comments at this time. Everybody knows that it is a sparking and well conceived, comedy in 4the best style of the author, who has contributed so much of the same class of works to our modern stage. Mr. Broughain is on his way to California, but he has decided to spend the first two weeks on his route in Brookiya as a halting place, where, no doubt, he will be hospitably entertained by the way.

THE EMPIRE CITY MUSICAL PALACE.—An overwheiming audience assembled last evening at the

whelming audience assembled last evening at the Empire City Rink, Third avenue and Sixty-third street, the occasion being the inauguration of this immense salle as a "grand musical palace" and promendde musicale. The appearance of the great concert room was of the most animating description, the long wreaths, bandeaus and arches of flaming gas jets, the drapery of flags, and the gigantic moving concourse of flash, and the seene magnificent. The concerts are to be given inghity, under the personal direction of Harvey B. Dodworth, whose orchestra, comprising about forty performers, has been engaged for the season. Last night the programme embraced some of the choicest selections from "Semiramide," "Oberon," "Arline," "Genevieve" and other favorite operas, together with some exquisite moreaux from the portfolios of Strauss, Sanderson, Reichardt, Dodworth and various popular maeseru. The establishment is under the direction of the masterly caterer to the New York public, Lafayette F. Harrison, and promises to be an immense success. The entire programme was rendered in Dodworth's most masterly style, and the largest rooted building in the United States gave ample scope for the display of the qualities of the superto crohestra. The stage has been cut up into numerous traps, and affairs behind the scenes, to one unfamiliar with the intricacies of stage business, appear to be in a most delightful state of contusion and disorder; but Manager Mosa, who knows all about such things, says that everything is oven now ready for the proper and immediate production of the gorgeous and extravagant pantomime that has been for months in active preparation at the establishment, and that he is only waiting for the withdrawal of "Caste," which event will happen in less than two weeks, before delighting New York with something more extravagant and funny in the way of pantomime than it has enjoyed for some

Instructions of Minister Motley—A Firm Policy Toward Great Britain to be Pur-

Secretary Fish spent some time at the White House to-day in consultation with the President over the instructions of Minister Motley. The question as to whether Mr. Motley should have written instrucgeneral understanding to do as he pleased, is at last settled. The Secretary of State read the instructions carefully to the President and received his assent to them prior to their being sent to Mr. Motley at New York. What the precise nature of them is cannot be made public. That part of them which relates to the Alabama claims is un terstood to be founded, substantially, on the speech of Senator Sumner so far as material indemnity is concerned. Mr. Fish does not agree with the sentiments of Mr. Sumner with regard to a de-mand upon Great Britain for a national apology in addition to payment in full for damages to our commerce. He considers this would be treated by Great Britain as equivalent to a leclaration of war, and, therefore, would not be entertained if presented by Minister Motley. Mr. Fish was scarcely in favor of going so far as Mr. Summer in other matters connected with the Ala-bama claims, but the President was of the opinion that the people demanded a firm policy towards Great Britain on this question, and, therefore, overruled the Secretary. A special messenger from the State Department left here this evening for New York with the instructions for Mr. Motley.

To-day she encamped around the Interior Department, with a view to laying stege to Secretary Cox. The Secretary was too busy to see her and she "went for" his chief cierk, who is a one-legged soldier. She demanded to be appointed librarian of the department, a place which she said she could fill better than the male biped who now holds it. The chief clerk mildly old her that she could not have the place. To be mild with the doctress is like "wasting sweetness on the desert air." It does not affect her as it does most women. She became trate, abused the good natured Chief Clerk, and threatened to come back again and see the Secretary, whether he was busy or again and see the secretary, whether he was only or not. The plucky Walker announces her intention of visiting the State, War and Navy Departments, and finally, in case all else falls, she will bombard the White House and try to take the polite card receiver, General Dent, prisoner and hold him as a hostage until the President gives her a place.

snuff may sell the products of his own manufacture
with paying a special tax as a dealer in tobacco; and a :manufacturer of cigars may sell the cigars of his own manufacture at the place of manufacture without paying special tax as a dealer; but if a manufacturer of tobacco or a manufacturer of cigars sell at the same time the products of another manufacturer he must pay a special tax as a dealer in manufactured tobacco. When a dealer in manufactured tobacco has his salesroom in the front part of his store and occupies his back part as a place for manufacturing tobacco, snuff or cigars, or where he uses the first floor of his building as a store or salesroom and the upper part or cellar as places for manufacturing or making tobacco or cigars, the goods, whether tobacco, spuff or cigars, must be packed and stamped before being remove from that part of the building where bacco, snuff or cigars are removed from the place where they are made and placed in a store or salesroom, where the occupant does business as a dealer, and they are offered for sale, within the meaning of the revenue law, and if they are found affixed the# are liable to seizure; and the person so removing his goods and offering them for sale without previously affixing and cancelling the proper stamps denoting the payment of the tax is linbe, on conviction, to the penalties imposed by sections seventy-one and eighty-nine of the act of July 20, 1868. where a person manufactures and sells cigars in the same room, and at the same piace sells cigars of other persons' manufacture, he must pack and stamp his cigars before he offers or exposes his cigars for sale by placing them upon his shelves, Manufactured and purchased goods cannot be stored shelves and counters, and with no stamps affixed to goods which the person thus exposing them has manufactured himself. Goods of his own manufacture which are commingled by the manufacturer with goods pur-chased without being properly stamped and cancelled are liable to seizure under sections 70 and 71, or if cigars under the provisions of section 89, act of July 20, 1868. The Brokers' Tax Question.—A Rehearing

Denied.
Acting Commissioner of Internal Revenue Douglass has addressed a letter to Messrs. Clarke Dodge & Co., of New York city, denying their appli-

THE UNION PACIFIC RAILROAD.

Mee'ing of Californiaus—Congratulatory Re-solutions on the Completion of the Pacific Railroad.

Last evening an adjourned meeting of Californians and other residents on the Pacific slope was
held at the Metropolitan Hotel, for the purpose of
passing congratulatory resolutions on the compleuon of the Pacific Rallroad. There was a large
attendance, On motion of Mr. O. H. Pierson, the
chair was taken by Mr. F. B. Clarke.
A committee was appointed to draw up a series
of resolutions relating to the subject of the meeting.
Dr. Stoddard, in relating some of his early exploits
in pioneering the Pacific coast, stated that in the
year 1840 he formed a company and proceeded to
Mexico, arriving at Sacramento. At that period but

few buildings had been erected in that locality. Mining operations were speedily commenced and build-ing on an extensive scale was subsequently undertaken. Although encountering much opposition his

enterprise was comparatively successful.

The chairman also related some reminiscences in connection with his lengthened tour through Cali-

forms. He adverted at considerable length to his experience in Mexico during the time of the war. He gave an interesting description of the aspect of affairs at that time, relating principally to the Commissary Department. He described his tour throughout the Peninsula and showed the vast progress which had been made.

Mr. Jacob P. Lease was then requested to relate some of his reminiscences in connection with his California experience. He described his intercourse with the Indians on the Plains, and alluded to the numerous missions which then existed on the route. He showed that the missionaries were on friendly terms with certain tribes of the Indians because they endeavored to keep them in an unfriendly condition to wards each other. All the land was in the power of the missionaries, but it was subsequently limited by reducing the number of missions. Castle was the great article of commerce in the country. In 1815 the trade began to open briskly, and an income trade was done in hides. An opening in trade appeared near the Rocky Mountains, which was eagerly taken advantage of by many. Alien a very lengthened and elaborate recitai of his early experience the speaker relerred to his settlement in San Francisco, and described the circumstances surrounding the rapid growth of that city.

The Chairman then read a series of resolutions to the effect that the residents of California and the States of the Pacific Coast sojourning in the city of New York believing the completion of the Pacific Railroad an event of the greatest movements in the history of the country's progress, and a victory of peace reflecting the highest credit on the people of the Chited States as a nation, and a mark of progress and enterprise of her people unequalled in the history of the world consider its successful opening a fit opportunity of congratulation, it was resolved that thanks were due to the wisdom and practical forethought of the projectors of the Iron Forsal political and completed a work which maturally must relound to the credit

The Chairman put the resolutions, which were carried unanimously.

Several gentlemen expressed their surprise that the citizens of New York had not been more demonstrative in their appreciation of the completion of the Pacific Railroad, and contended that such a great event was as worthy of public demonstration as took place on the taying of the Atlantic cable or the opening of the Croton water works, insamuch as New York was largely benefited by the transaction. A motion

having been made thanking the proprietor of the Metropolitan Hotel 1'er the gratuitous use of the meeting room, it was r.\solved, on the motion of Mr. Pierson, to adjourn the pr\ceedings till next Monday evening.

ARMY INTELL GENCE.

WASHING. WN, May 17, 1869. WASHING ON, May 17, 1869.

V. D. Reeve, S. U. Nelli: Surgeons J. F. Cuyler and J. T. Hammond, and Brevet Captain Howard Stockton.

Brevet Major A. N. Damrell has been ordered to refleve Brevet Colonel F. E. Prime as engineer of that portion of the Lighthouse district east of P. Est river.

NAVAL INTELLIGENCE.

Commander Jonathan Young has been assigned to duty at the Naval Observatory at Washington.

The second day of Peutecost was celebrated by the Germans in rather more than their usual man-ner. At Funk's Union Park the Northeastern Saengerbund had their festival, and under the direction of Carl Anschuetz, the well known master, the fel-lowing programme was excellently rendered:—i. A March, by Schubert. 2. An Overture, by Mendets-sohn, known as "Opus 24," written exclusively for wind instruments, and never before performed un the United States. Then followed a song by Abt, it being the expression of victory over the Romans in the Teutoburger Wald. After this came a selection from "Robert le Duble," then a hymn by Mohr, and the musical entertainment closed with the "Fackeltanz" of Meyerbeer. There were about 15,000 people upon the grounds and all were evidently delighted. Messes. Devector, Vozei, Sell, Classen and Banhahn comprised the committee

were evidently delighted. Messrs. Devecker, Vogel, Sell, Classen and Bauhalin comprised the committee of arrangements.

At Jones' Wood the New York Turnverein, assisted by twenty-one singing societies, held their annual festival. A beautiful wreath of flowers was presented to the society upon the grounds by Misshaussom, and a very handsome young tady she unquestionably appeared. The number of those present probably exceeded 20,000.

The Unken Ciub assembled at Major Kruger's Schentzenruh where they gave an agreeable display of their vocal and instrumental abilities.

At the Terrace Garden the Teutonia Maännerchor held forth. They performed the "Lieber-Frühling" "Lethebuunk" and "Lebewohl mein Vaterland" with great power and expression.

The Concordia met at the Elm Park, on the corner of Ninety-second street and Eighth avenue, and among the several thousands present there was but one opinion of the artistic rendition of their excellent programme.

The Bohemian singing and reitef society "Hlahoe" consecrated a banner presented to it, and celebrated the occasion with a ball in the evening at the Germania Assembly Booms.

More than one hundred different German societies celebrated the day with outdoor or indoor entertainments, and it is almost unnecessary to add that the occasion was throughout most heartily enjoyed.

DEATH OF A WEALTHY STRANGER.

Strange Proceedings.
A somewhat singular case was yesterday brought, to the notice of Coroner Flynn. A few days since Mr. George Gibson, a wealthy grocer, fifty years of age, living at Cedar Creek, Cal., came to the city on business, and put up at Van Dyke's Hotel, corner of business, and put up at Van Dyke's Hotel, corner of Bay ard street and the Bowery. On Sunday night he was taken sick, and yesterday morning was found dead in his bed. As deceased, who had neart and other organic diseases, had previously been treated by an eminent physician of this city the death of Mr. Gloson was reported to him, and, as alleged, he despatched Drs. Beil and Beckman to make a post-mortem examination. Information having reached the toroners' office, Coroner Flyan proceeded to the place designated and found the medical gentlemen named engaged in the examination. On being questioned by the Coroner as to their course of action they were much confused, and seemed to be ignorant of doing anything wrong, whereupon, under the direction of Dr. Shine, the post-morten was proceeded with. It showed that death was the resunt of capillary bronchitis, hastened by aneurism of the aorta. In consequence of the peculiar nature of the case the inquisition was adjourned tilt to-day. The deceased had in his possession bank books showing deposits of nearly \$30,000 in Treasury notes, a gold watch and chain, and valuable papers, all of which were taken in charge by the Coroner, assiceceased had no relatives here to daim the property. The body of Mr. Gloson is in the charge of an undertaker, awaiting the result of the inquisition. It is stated that the proprietor of the hotel where Gloson died did not deem the services of a coroner necessary; hence his failure to give notice of the fact at once. Bayard street and the Bowery.
